SUMMARY

I am a Manual QA Engineer with strong attention to details. Since I start testing, I learned how important is to be patient and a team player. I like new challenges, that made me want to learn more and more about this domain and improve my skills every day. My objective is to excel in a challenging and innovative QA work environment and aim to exercise my full potential. That's why I am looking for a company that will give me the chance to learn and develop myself as a Manual QA Engineer. As far as a job is concerned is that i want to work on a cool project, being in touch with a friendly team and just enjoy it.
